PROFESSIONAL SUMMARY

Software Engineer with hands-on experience building modern, scalable web applications end-to-end. Skilled in React/Next.js frontends, Node.js/Express APIs, and AI-powered systems (RAG, LangChain, OpenAI). Experienced in backend architecture, role-based access control, vector search (Pinecone), and cloud deployment using Vercel and Docker.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES2024+), TypeScript, Tailwind CSS, Bootstrap

Backend: Node.js, Express, GraphQL, RESTful APIs, MySQL, MongoDB

AI / ML: LangChain, OpenAI API, Pinecone, RAG architecture, Rasa NLU, Supervised and Unsupervised Machine Learning

Cloud & Tools: Docker, Kubernetes, Vercel, Git, GitHub, Figma, Postman

KEY PROJECTS

AI Knowledge-Base Platform Next.js · OpenAI · Pinecone · LangChain

- Built a RAG pipeline using LangChain for context-aware natural-language querying of custom document sets.
- Generated vector embeddings with OpenAI + Pinecone for sub-second semantic search; streaming chat UI via Vercel AI SDK.

ResearchNet.com Next.js · OpenAI · OpenAlex · MongoDB

- Engineered an AI-driven discovery and summarization pipeline** utilizing the OpenAI API for dynamic topic refinement and side-by-side paper comparisons.
- Designed a responsive, secure full-stack environment** featuring PDF citation metadata analytics (H-Index, Impact Factors), MongoDB-backed libraries, and NextAuth session management.

E-Commerce Platform with AI Chatbot React · Python · Rasa

- Delivered a full e-commerce store (cart, checkout, order history) integrated with a custom Rasa NLU chatbot.
- Enabled natural-language product search and order tracking, reducing manual support overhead.

EXPERIENCE

Full Stack Developer — Freelance Remote | 2023 – Present

- Architected and deployed production-ready applications from concept to fully hosted environment.
- Delivered client projects on Freelancer.com across e-commerce, data platforms, and AI integrations.
- Applied clean-code principles and modular architecture; collaborated with clients from requirements to delivery.
